Operational

Dr. Murad FERID and Andreas ZITZELSPERGER

1. *C* recently visited Munich and contacted an old trusted contact of his, Dr. Murad FERID, District Attorney and instructor at the law school of the Munich University. FERID gave *C* the following information:

"A friend of FERID's is a certain Andreas ZITZELSPERGER, residing at Aggling near Rosenheim Haus, No. 77. ZITZELSPERGER is inspector of customs and also seems to be the chief dispatcher of agents in the ZIPPER Czech program. He is depressed about his work for ZIPPER since he claims that ZIPPER dispatches agents who are badly briefed and ill-equipped for the missions on which they are sent. His conscience worries him since he thinks the general agent operation of ZIPPER in which he takes part irresponsible and needlessly dangerous. ZITZELSPERGER likes to work in this general field but also feels that he would like to work for an agency that is more concerned with the life of the agent it employs."

2. FERID seems to be well informed on some other ZIPPER activities due to personal friends he has in the ZIPPER complex, and it might be a good idea to think of FERID as a possible resident agent for CI information in Munich. If you have a case officer that could keep in touch with FERID for informal discussions periodically, please indicate since *C* would be in a position to make appropriate introduction to him.
